

UID Compliance Services:

Trace Automation can be your single source provider to assist with hardware, application software, integration and an understanding of the submittal process to the UID registry.

Here is a partial list of services we provide to DoD suppliers and property custodians:

- Education and Training
 - Clarification of issues regarding DFAR 252.211-7003 Item Identification and Valuation (UID)
- Needs Analysis & UID Strategy Development:
 - On-site assessment of company systems and requirements
 - Mark and label assessment
 - Verification and validation methods
 - Reporting and registering marked items to the UID registry
- Identify and select vendors of:
 - Outsourced tagging services
 - Bar code printers, direct part marking systems and media for creating tags in house
 - Scanners
 - Handheld Computers (HPC's)
 - Verifiers
 - Test Labeling and UID registration
- Install and configure hardware and software solution
 - Full Production labeling and UID registration rollout
- On-going monitoring and notification of changes from the UID Program Office
